

The Intern Group & The University of Sydney 2025 Internship Program

In January 2025, we are thrilled to be welcoming a new cohort of over 35 first-class students from the University of Sydney to NYC. Following the success of our inaugural 2024 program, we are once again offering our company partners the opportunity to host first-class interns from the university's esteemed business school.

We are looking for some of New York's most dynamic and innovative organizations to help us co-create a transformational experience of a lifetime for each student. By taking part in our program, you will contribute to the development of future leaders and benefit from the valuable skills and experience they bring to your organization.

Join The Intern Group and the University of Sydney in our common goal of empowering individuals to reach their full potential through academic excellence and hands-on experience.

Key benefits of our program

- Hire world-class, pre-vetted intern candidates, selected from a highly competitive application and admissions process.
- Build a diverse talent pipeline with global perspectives to enhance the diversity and internationalization of your team.
- Time and cost-effective recruitment; there are no costs to you for our service.
- The Intern Group manages all program logistics to provide a first-class experience for students and the company (visa, accommodation, community, professional development curriculum)

University of Sydney by the Numbers
